**Email: [info@siluetti.fi](mailto:info@siluetti.fi)**

### Learning Objective:

**Participants will be able to discuss and identify advancements, improvements and complications in various aspects in the treatment of nasal deformities.**

## FATS

**The Finnish Aesthetic Teaching Symposium** has a long history of hands-on teaching in plastic surgery. Many internationally well-known plastic surgeons have attended our meetings and presented the latest techniques in aesthetic surgery. Just to mention a few: Gilbert Aiach, Ricardo Barudi, Louis Benelli, Thierry Besins, Henri Delmar, Robert Ersek, Yhelda Felicio, Antonio Fuente del Campo, Jose Gererosantos, Per Hedén, Gerald Illouz, Darina Krastinova, Jaques Levignac, William J. Little, Deirdre Marschall, Riccardo Mazzola, Rodolfe Meyer, Fredrick Nicolle, Julien Reich, Luiz S. Toledo, Frank Trepsat, Anthony Wolfe, Manuel Yudovich etc.

The aim of our meetings has been to up date plastic surgeons in current surgical practices and to emphasise the under lying anatomical and functional principles of procedures. We have been able to attract outstanding plastic surgeons from all over the world. Participants will benefit from the experience and skill of these senior colleagues not only by listening to their presentations but also by observing and assisting in operations. Because of the hands on nature of the meeting we will have to limit the number of participants to 30. We wish you all welcomed to Siluetti and to the beautiful city of Helsinki, The Daughter of The Baltic.

 **SILUETTI** is a modern private hospital in the centre of Helsinki. The hospital was designed for plastic surgery and has the latest equipment necessary for the most complicated procedures.

Plastic surgery is only performed by highly qualified plastic surgeons assisted by equally experienced nurses and other medical staff. The Hospital performs microsurgical, laser, cranio-maxillofacial, orthognatic, bone distraction, secondary facial surgery, reconstructive and aesthetic plastic surgery etc. The patients are evaluated pre and post operatively by a multidisciplinary team of doctors and other health care specialists like cosmetologists as needed. This team approach ensures maximal safety and optimal operative results for the patient. ([www.siluetti.fi](http://www.siluetti.fi))

**The registration is limited to 30 participants**

**Registration Information: Last Day of Registration February 28<sup>th</sup> , 2006**

Registration form should be faxed or mailed to Irene Järvelä. Registration will be confirmed via e-mail with Bank Account number.
